

Energize Your Business by Supporting Electric Vehicles

TEP's new Smart EV Charging Program offers commercial customers generous incentives for purchasing and installing qualified charging stations on their premises.

All businesses, multi-family complexes, nonprofit groups and schools qualify for these incentives, with higher amounts available in lower-income areas.* Our rebates greatly offset your purchase and installation costs, making it easier to become a leader in developing sustainable EV infrastructure for our community.

Incentives

Charger Type	Site	Standard	Business Located in a Lower-Income Area*
Level 2 (L2)	Workplace	\$4,500/port; up to 75% of project cost	\$6,000/port; up to 75% of project cost
Level 2 (L2)	Multi-family, Nonprofit	\$6,000/port; up to 85% of project cost	9,000/port; up to 85% of project cost
DC Fast Charger (DCFC)	All	\$24,000/port; up to 75% of project cost	\$40,000/port; up to 75% of project cost

*A lower-income area is a geographic area where the median income is at or below 80% of Arizona median family income. Census tract income data is available from data.census.gov.

Learn More
